Engage with us

Our career employment events are tailored to your recruitment and selection needs. The School's high-calibre students and alumni are highly sought after in the global recruitment markets. To recruit students, our partners use various engagement strategies, from online job postings to dedicated campus events.

On campus

Company presentations

This gives you the chance to provide further business insight and talk about your career opportunities.

Networking session

Following the presentation – this gives you the chance to speak more informally with students and for them to get to know you.

Attending careers fairs

We host sector tailored careers fairs with typically 15-20 clients that give you the opportunity to meet with our students more informally.

Case studies

Some clients like to test students' thinking and skills by setting a case study on a project or a particular scenario they might encounter in day-to-day working life.

One to one coffee chats

These are useful if you review our Resume Book or ask students to submit a CV to you. We can schedule a time for you to speak one on one with students who you feel have the skills/attributes you are looking for.

Networking lunches

We can organise a networking lunch for a select group of students you would like to engage with (using our resume book may help with selection).

Virtual

Posting job vacancies and view student profiles

You have the ability to post vacancies, view student profiles and download student resume books through our online Careers platform: OSCAR.

Webinars

Employing interactive webinars has proven to be a very popular and cost effective method of engaging with students. It allows you to talk more about your company, any job opportunities, and the company culture to capture student interest and promote your brand.

In Business

Company treks and visits

We are able to organise groups of students to visit your offices to gain a better understanding of your business and culture.

Internships

We actively promote internship opportunities to our students allowing you to gain valuable talent insights over an 8–12 week period starting in June or July.

Strategic Consulting Projects (SCPs)

Many businesses need strategic insights into a business problem. We can support you to gather a group of students who can help you solve this.
